The Alexis Soyer is our lightest and most economical commercial mobile pizza oven on the road today. It is perfect for events where space is limited and for parties where the access is restricted – even small SUVs can tow it! There is no other compact mobile pizza oven in its class that compares. Period. Begin your business with this trailer and expand as the profits come in.

The Alexis Soyer mobile wood-fired ovens are stainless steel ovens manufactured in the United States. These fully assembled outdoor pizza ovens are lightweight, portable, and can be cooking in 30 minutes.
